

Research Associate

Location: Thousand Oaks, California

Position type: Full time

Required education: B.S. or Graduate degree

Area(s) of expertise desired: Chemistry, Biochemistry, Medicinal Chemistry, Biology, Formulation Sciences, Pharmaceutical Sciences

Description: Dantari is a new biotechnology company committed to creating breakthrough medicines for the treatment of cancer and other serious diseases. Using our proprietary platform technology, we have engineered a targeted delivery system for large- and small-molecules to treat diseases with unmet medical need. This is an exciting opportunity to contribute to the science and culture of a well- funded biotech start-up with an experienced management team.

We are seeking an energetic, highly motivated, and creative scientist with experience with analytical techniques for small and/or large molecules. The ideal candidate is a strong team player, who has outstanding written and oral communication skills, enjoys scientific discovery and has the ability to communicate and collaborate in an interdisciplinary environment.

The successful candidate will perform hands-on experiments and support assay development.

Primary responsibilities of this position will include:

- Participation on drug discovery project teams, supporting formulations, analytics, conjugation, and/or assay development
- Analysis of experimental data and presentation to senior management and regulatory agencies
- Preparation and communication of research results in both oral and written format
- Oversight of other research collaborators such as external vendors in a fast-paced R&D environment

Recommended Experience and Skills:

- B.S. degree in chemistry, biochemistry, medicinal chemistry, biology, formulation sciences, pharmaceutical sciences, or related field, with preference for those with industry experience
- Broad experience with bioanalytical and biophysical characterization of small molecules as well as proteins and antibodies (e.g. HPLC, LC-MS, ELISA, SPR/BLI)
- Experience developing or analyzing therapeutic candidates in the biopharmaceutical industry
- Strong communication skills, good problem-solving abilities, and an ability to work effectively in a dynamic environment with a diverse team of co-workers

Dantari is an Equal Employment Opportunity employer and encourages candidates with diverse backgrounds and experiences to join the team.

Dantari offers an attractive salary and benefits package, and employees also have equity ownership. To apply, please submit your resume to careers@dantari.com.
